

EDUCATION

Sri Eshwar College of Engineering	B TECH AI-DS	CGPA: 7.98%	2023 - 2027
Vailankanni Public School (CBSE)	HSC	78.6%	2022 - 2023
Vailankanni Public School (CBSE)	SSLC	88.8%	2020 - 2021

INTERNSHIP

MERN Stack - G-Zoft Tech Solutions	2025
worked on developing responsive web applications using MongoDB, Express.js, React.js, and Node.js. Gained hands-on experience in frontend and backend development, REST API integration, database management, and building full-stack web solutions.	
WEB DEVELOPMENT – Octanet Services	2023
worked on designing and developing responsive websites using modern web technologies. Enhanced skills in frontend development, UI design, debugging, and creating user-friendly web applications with efficient functionality.	

PROJECTS

Banking Complaint Analysis System	2026
Developed an NLP-based machine learning web application to classify banking complaints into categories such as loan issues, card fraud, and account problems using Logistic Regression. Implemented TF-IDF vectorization and text preprocessing techniques to improve prediction accuracy and detect fraud-related urgency levels. Built an interactive web interface for real-time complaint analysis and automated complaint prioritization.	
Pet Adoption System	
Developed a full-stack web application to connect pet seekers with adoption centers, enabling seamless pet listing and adoption management. Implemented features such as user authentication, adoption request handling, admin dashboard management, and responsive UI design for improved user experience. Integrated frontend and backend functionalities using modern web technologies to ensure secure and efficient data handling.	
Learning management System	
Developed a Learning Management System using Java and MySQL to manage courses, user records, and student progress tracking efficiently. Implemented features such as student enrollment, assignment management, attendance tracking, and performance report generation. Designed a structured database system and user-friendly interface to improve academic management and data accessibility.	

TECHNICAL SKILLS

Languages: C, C++, Python, DBMS.

Technologies/Frameworks: HTML5, CSS3, Js. Tools: VScode, Git, Github, Canva, MySQL.

Core Concepts: Data Structures & Algorithms(basics), Object Oriented Programming(basics).

Web Development: React js, Node js, MongoDB

ACHIEVEMENTS

Leetcode: 1400 + Rating Solved 90+Problems- [link](#)

Skillrack: 100+ problems solved- [link](#)

CODECHEF: Solved 100+Problems- [link](#)

Paper Publication	2024
IGI Global	
Hinweis - Deep Learning with Domain Adaptation for Cross-Dataset Generalization in Intrusion Detection Systems	

CERTIFICATIONS

Completed Mastering Data Structure and Algorithms Using C and C++	Udemy	2024
Completed Pandas Course	Kaggle	2024
Data Science Foundation	Great learning	2024
SQL(basics)	HackerRank	2024
