EDUCATION

Sri Eshwar College of Engineering	BE.EEE	CGPA:8.14	2023 - 2027
AKT Academy Mat.Hr.Sec school	HSC	91.5%	2022 - 2023
AKT Academy Mat.Hr.Sec school	SSLC	PASS	2020 - 2021

INTERNSHIP

iNeudata Consultancy & Services Data (Certification)	2025
Performed data cleaning and processing using SQL and MongoDB, built data visualizations with Python, and worked with big data tools including PySpark, Hadoop, Kafka, and Airflow in a Linux environment to support scalable data pipelines.	
RV Tech Learn-MERN	2024
Worked on developing full-stack applications using MongoDB, Express, React, and Node.js, implementing REST APIs and JWT-based authentication to ensure secure user access. Contributed to backend integration, database operations, and overall application performance improvements.	

PROJECTS

Customer Shopping Behavior Analysis – Data Analytics Domain [Python PostgreSQL Power BI] (GitHub)	2026
Developed an end-to-end customer behavior analytics solution using Python, PostgreSQL, and Power BI on 3,900+ retail transactions to analyze purchasing patterns and customer segments. Performed data cleaning, feature engineering, business analysis, and built interactive dashboards to generate actionable insights for customer retention, marketing optimization, and revenue growth.	
Wildfire Detection System – AI & IoT Domain [ESP32-CAM Edge Impulse IoT Embedded C]	2025
Developed an AI-powered wildfire detection system using ESP32-CAM and Edge Impulse for real-time fire and smoke detection. Integrated DHT11, MQ-7, and MQ-135 sensors for environmental monitoring and multi-sensor anomaly validation to reduce false alarms. Enabled remote monitoring and instant alerts through Blynk IoT for low-power deployment in remote forest environments.	
Revenue Performance Intelligence – Hospitality Domain [Power BI DAX Data Modeling]	2026
Developed a Business Intelligence solution using Power BI to analyze revenue performance across a multi-property hospitality dataset. Designed a star schema data model and created DAX measures to track KPIs including RevPAR, ADR, Occupancy Rate, and Realization Percentage. Built interactive dashboards with drill-through analysis to identify underperforming segments and support data-driven revenue optimization decisions.	

TECHNICAL SKILLS

Data Analytics & Business Intelligence : Power BI (DAX, Data Modeling, KPI Dashboards, Drill-through Reports), Data Visualization, Business Intelligence Reporting, Excel (Pivot Tables, Lookup Functions, Data Cleaning, Charts)
Programming Languages : Python, Java, C
Databases : MySQL for data extraction and analysis, MongoDB
Tools & Platforms : Jupyter Notebook, VS Code, Git, GitHub, Canva
Core Concepts : Data Structures & Algorithms, Exploratory Data Analysis (EDA), Data Cleaning, Data Modeling, ETL Concepts.

CERTIFICATES

Mastering Data structures and Algorithm Using C and C++ -UDEMY (Certificate)	2025
Next GEN Data Engineering (Certificate)	2025
Introduction to Internet of Things (Topper 5%) (Certificate)	2025
SQL for Beginners (Certificate)	2025
Deloitte job simulation involving data analysis and forensic technology (Certificate)	2026
Introduction to Industry 4.0 and Industrial Internet of Things (Certificate)	2026

ACHIEVEMENTS

WINNER in FRESHATHON at Sri Eshwar college of Engineering	2024
Shortlisted to 2 nd in SHAKTHI NATIONAL LEVEL HACKATHON	2025
Shortlisted to Final Round For KALAM AWARDS	2025
JOURNAL PAPER Published - Forest Fire Detection and Prevention using AI Enabled Camera (Certificate)	2026
